

Observations from Week 1

- 1) If you click on a link that requires permission, check to see that you are clicking on the correct link in your “class daily lesson” on novakmath.com. It is possible that I incorrectly did not share it, but it is more likely that you are trying to access something from one of the other classes. Sometimes, I have a separate document for each class.
- 2) Please only share **“the link”** with me when turning in assignments.

- 3) Monday Zoom sessions for Homework/Lesson Q & A are VOLUNTARY and NOT used for attendance. Assignments due on the date assigned are the only thing used for cyber day attendance!
